

BANISH ALL THE COLORED FOLKS

The Infuriated Citizens of Pierce City, Mo., Drive Out the Negroes.

ANOTHER LYNCHED

Blacks Are Flying in All Directions, Pursued by a Mob of Whites.

CABINS ARE BURNED

Pierce City, Mo., Aug. 22.—The great riot which began with the lynching of Will Godley and his grandfather, French Godley, lasted fifteen hours, and this morning there is not a negro within the confines of Pierce City. The infuriated populace added Peter Hampton, the aged negro, to the list of the slain.

The mob stole rifles from the local armory, and, armed with them, is still searching for the fleeing blacks, who have taken to the mountains. Several, who have borne bad reputations, will be killed if caught.

The citizens of Pierce City declare no negro shall ever live here again. Most of the refugees are making through the woods to Joplin, as Mott, the nearest town, has for years refused to permit a negro to reside there. Across the main street of Mott for years there has been a sign reading, "Nigger, don't let the sun go down," and no negro has been permitted to remain inside the corporation after dark. The mob leaders declare the same conditions will prevail here.

Citizens declare no negro porters will be allowed to run through here on trains, and it is probable the Frisco line will have to change porters at Springfield hereafter. Yesterday a shot was fired into a train, and it is supposed to have been aimed at the porter.

After Monday night's scenes it was supposed the town would quiet down, but the mob was determined no black should remain. A large party, armed with the rifles stolen from the armory, made a descent upon the negro quarters. Most of the negroes had already fled. The mob opened fire on the cabins, riddling them. Then the cabins were fired, and Peter Hampton, who was mentioned as being implicated in or having knowledge of the murder of Miss Wild, was cremated.

Members of the militia company were among the leaders of the mob.

STATE BOARD MEET TO ASSESS TAXES

To Fix the Value of Sleeping Car and Express Company Property in the Badger State.

Madison, Wis., August 22.—As required by law, the state board of assessment to fix the value of sleeping car and express company property in Wisconsin and to assess the taxes thereon held its first meeting yesterday afternoon and began its work.

The work will probably not be finished for several days. The rate of taxation this year will be 2.3624 mills per dollar, as against 2.5671 last year. According to the law the rate must be the average rate of all of the other property in the state. Last year the express companies paid \$1,339.60 in taxes and the sleeping car companies \$9,956.15. The board of assessment includes the land commissioners and President N. S. Gilson of the tax commission.

The state tax commission yesterday heard arguments by representatives of Outagamie and Price counties against any increase in the assessments of those counties.

Representatives from Oneida county will be heard today.

Asks For an Injunction

Madison, Wis., August 22.—(Special)—An injunction was applied for before Judge Stebbins today by Mayor McPetridge of Baraboo to restrain the city of which he is the mayor from repairing a bridge near the mill owned by the mayor and his

WALSH IS TURNED DOWN AT MADISON: APPROVE SPOONER ELECTRIC LINE

Scheme of the Milwaukee Road to Prevent Construction of a Road to Janesville, Nipped.

Madison, Wis., August 22.—A majority of the members of the Madison common council tossed into the air one James Walsh of Chicago and his petition for a franchise to build a second electric street car line in this city.

Walsh, backed by the Chicago, Milwaukee & St. Paul road, recently applied for a franchise to construct a street car line here as a rival to that owned by P. L. Spooner, the object being to annoy the latter and prevent, if possible, his building an interurban electric line from Madison to Janesville. The interurban line would be a competitor of the Milwaukee road and hence the latter is

brother, on the ground that it will injure his business. The matter is a fight between the mayor and the common council.

WINDSTORM IN OKLAHOMA.

Two Persons Killed at Anadarko, Where Buildings Are Destroyed.

Anadarko, Okla., Aug. 22.—This section of Oklahoma was swept by a severe wind and rain storm, which resulted in loss of life and the destruction of much property.

The storm was most severe in the neighborhood of this place, which it struck at about 8 o'clock. Here there were two fatalities and upward of twenty persons were injured. Large buildings along the main street of the town, several of them in process of construction, were almost demolished, a number of dwellings were lifted from their foundations and hardly an out-house is left standing.

Reports from the country districts are meager, but they indicate that a number of persons have been killed, many buildings destroyed and that the loss in crops and live stock will be heavy. One report says that four persons were killed at a farmhouse a few miles distant.

CREAM CITY BARS YELLOW PAPERS

Milwaukee Chief of Police Will Enforce the Law Passed by the Last Legislature.

Milwaukee, August 22.—Chief Janssen startled the news dealers today by sending each of them a copy of the law passed last winter by the state legislature with a view of suppressing the intensely "yellow" papers. The law, which is quoted in the chief's letter is as follows: "Any person who shall sell, lend, give away or show, or shall have in his possession with intent to sell, give away, show, or shall advertise or otherwise offer for loan, gift or distribution, any book, pamphlet, magazine, newspaper or other printed paper devoted principally to the publication of criminal news, police reports, or accounts of criminal deeds of bloodshed, lust or crime, shall be guilty of a misdemeanor, and upon conviction thereof shall be sentenced to pay a fine of not less than \$50 nor more than \$500."

So far the law has been a failure but the police in Milwaukee will now make an effort to enforce it strictly.

THREE MINERS MEET DEATH IN A SHAFT

Premature Explosion of Sixty Sticks of Giant Powder in an Ishpeming Mine.

Ishpeming, Mich., Aug. 22.—Three miners, Adolf Gurtson, Gust Maki and Frank Koberg were killed in a mine here at 5:30 o'clock last evening by a premature explosion of sixty sticks of giant powder. The men were in the cage going to the bottom of the shaft with it when it exploded. The smoke is so thick in the shaft that it will be impossible for men to go down for several hours. Koberg was eighteen years of age and was the only unmarried man of the party.

SEVERE BLOW FOR A BOER COMMANDO

Cape Town, August 22.—Col. Barker has captured Haasbroek's entire commando at Doornburg. The Boers lost seven killed and two wounded. Twenty-seven are missing.

AN OLD SETTLERS' REUNION.

Pioneers of Green County Hold Annual Meeting at Monroe.

Monroe, Wis., Aug. 22.—The eighteenth annual reunion and picnic of the Green County Old Settlers' association was held at Hyde park in this city, yesterday. Nearly 1,000 persons were present. Photographs of several groups were taken and there were thirteen in the group of those who came to Wisconsin before 1840. Dr. William Monroe was the real patriarch having come to the state in 1831. These officers were elected: President, C. A. Booth; Secretary, Robert A. Etter; Treasurer, M. T. Gagen; trustees, C. F. Pengra, Sylvester, Charles S. Young and Dr. W. B. Monroe of this city.

BEAUTIFUL WIFE OF GOV. BECKHAM LIES DYING AT FRANKFORT, KY.

Fatal Illness Immediately Follows Birth of a Daughter—Expert Physicians Arrive on Special Train—Say the Patients Condition is Critical.

Frankfort, Ky., August 22.—The condition of Governor Beckham's wife shows a slight improvement at noon.

Frankfort, Ky., August 22.—Mrs. Jean Raphael Beckham, the beautiful young wife of Kentucky's governor lies at the point of death this morning and the circumstances surrounding her illness are singularly sad. She is a bride of a little less than a year and has been a mother only five days. Her little daughter was born on August 16, a few weeks sooner than was anticipated. Dr. E. C. Hume and Dr. C. C. Owens, who attended Governor Goebel after his assassination, are Governor Beckham's physicians. They felt that Mrs. Beckham's life was in danger from the time of the birth of her child. Last night the condition of Mrs. Beckham became so grave that a telegram was sent to Dr. A. M. Cartledge and Dr. C. P. Simpson, noted physicians of Louisville. The doctors came on a special train which was brought over the fifty-five miles in one hour. A consultation held at the mansion immediately after the arrival of the train resulted in a statement by the

physicians that septicemia had set in and from that Mrs. Beckham was in a critical condition. Her temperature was 105° until 4 o'clock, when a slight operation was performed and the fever left the patient and her temperature went down to 94½ degrees. The physicians however, held out little hope of her recovery. At ten o'clock this morning there was no hope of her recovery. The tiny girl born five days ago is the only child of a Kentucky governor ever born in the historic executive mansion. Relatives of Mrs. Beckham have been called by telegram to her bedside. Mrs. Beckham is 23 years old. She is a beautiful and lovable woman, whose gentleness won her a warm place in the heart of the men and women of all classes when she entered the mansion at a time of political bitterness unprecedented in the history of Kentucky. The governor's wife before her marriage was known as 'the loveliest girl in the blue grass region.' She is also known as an expert horsewoman in Owensboro, where her father is a rich tobacco merchant.

POMP AND HONOR FOR MAC ARTHUR

The General Will Be Received and Entertained in Milwaukee with Great Ceremony Sept. 11.

Milwaukee, Wis., August 22.—General Arthur MacArthur will reach his home city—Milwaukee—Sept. 11, instead of August 29, as at first announced. He will be the guest of the Merchants and Manufacturers' association, a committee from which will go to Chicago on the morning of September 1, to escort him here. The special car of General MacArthur will be used by the committee, and the distinguished guest will arrive in the city about 2 o'clock in the afternoon. The general and his staff will be met by General Charles King, commanding a military escort consisting of a battalion of the Wisconsin National Guard, escorting them through some of the downtown streets to Juneau Park, where the ceremonies of the reception will take place. The general will be welcomed to the city by Mayor Rose, the mayor speaking from a platform to be erected for the purpose and upon which will be seated a committee of business men.

FIVE MEN ARE DROWNED.

Meet Death as a Result of Explosion in Crib Tunnel at Cleveland.

Cleveland, O., Aug. 22.—Five men were drowned last night as the result of an explosion of gas in the tunnel leading from waterworks crib No. 3, two miles from crib No. 2, where the fatal accident of last Wednesday occurred.

The work of sinking the shaft at crib No. 3, which is five miles from shore, was completed yesterday. Five men were at once put to work digging a tunnel toward crib No. 2. These men had been working only a short time when a terrific explosion of gas occurred. The casing of the tunnel was crushed and a torrent of water from the lake rushed into the opening. The five men who were in the tunnel had not the slightest opportunity to escape and perished before assistance could reach them. Their bodies have not yet been recovered.

COLOMBIAN GUNBOAT SINKS.

Steam Launches Now Searching for the Missing Vessel.

Colon, Aug. 22 (via Galveston).—News just received here from Cartagena says that an open boat, containing nine men, has arrived there and reported that the Colombian gunboat La Popa sank on leaving Savanilla for Cartagena. Steam launches were immediately dispatched to search for the La Popa, but no trace of the gunboat was found. She recently underwent a thorough overhauling at Colon, the repairs costing \$25,000. La Popa was an iron auxiliary schooner gunboat, built in 1887 at Wilmington, Del., and having one propeller. She was 130 feet long, had twenty feet beam and was eleven feet deep.

Fort Will Be Destroyed.

Peking, Aug. 22.—The omission from the peace settlement protocol of a provision for the destruction of the Chinese forts was due chiefly to Li Hung Chang's protests. He represented that it would be a great disgrace to himself, who had built the forts, to sign an agreement for their destruction. Moreover, he might be punished therefor. The omission in no wise affects their destruction, which will be carried out on the ground of military necessity. The military work of preparing copies of the protocol is likely to delay the signing for a few days.

Captain Chyroweth, U. S. A., is busy inspecting the entire camp this week. Ex-Colonel Moore, a veteran commander of the Third Regiment in the war reviewed the regiment.

MAKE GOOD SCORES AT CAMP DOUGLAS

Third Battalion Makes Fair Showing on Range and Ninety-Four Men Qualify for Skirmish.

Camp Douglas Range, Wis., Aug. 22.—The Third battalion fired on fixed distances and skirmished today. Although the scores were not equal to those of the First battalion, they were remarkably good. Highest company volley score, 306; lowest, 191; total, 1,043. Highest fixed distance and skirmish score, 245; lowest, 203.

Ninety-four men qualified for skirmish, breaking the record of the national guard.

First and second battalions engaged in regimental drill and outpost duty. Their maneuvers were better than expected.

The Tenth separate battalion was inspected this morning.

LEAVES \$8,000,000 TO A NIECE.

Eccentric Dr. Henry Dolan Dies, Leaving Only One Near Relative.

New York, Aug. 22.—Henry Dolan, who died in this city a few days ago, left an estate valued at \$8,000,000. He had no near relatives here and his property is to go, it is understood, to his niece, Mary L. DeForest of Irving, Marshall county, Kansas. She is the daughter of his only brother and is an old woman now with several grown sons and daughters. Dr. Dolan was past 80 and eccentric. He was also philanthropic, the negroes being his especial favorites when it came to dispensing charity, and he always gave with a free hand. It is estimated that he gave away hundreds of thousands of dollars. Dr. Dolan for the last thirty years had been a recluse, living most of the time at the Union club, of which organization he had been a member since 1863. Practically all his fortune is in New York real estate.

SCHLEY'S OBJECTIONS AGAIN UP

Correspondence Relative to Admiral Howison to Be Given Out.

Washington, D. C., Aug. 22.—Acting Secretary Hackett and other naval officials were in conference today on the Schley case. It is expected that correspondence relative to the selection of Admiral Howison as a member of the court of inquiry will be given out at the navy department today. This correspondence, however, is not that of the last few days, in which Admiral Schley's counsel asked that a certain interview be submitted to Admiral Howison, but is the correspondence of some weeks ago, which satisfied the department at that time that Admiral Howison was unprejudiced and was acceptable to Admiral Schley's counsel.

SPARKS FROM THE WIRES

London, August 22.—The rumor that Prime Minister Salisbury will retire has been revived. Gossip has it that he will be succeeded by the Duke of Devonshire.

Roanoke, Va., August 22.—J. Hampton Hoag was nominated by the republican convention for governor this morning.

Paducah, Ky., August 22.—The bodies of three more victims of the City of Golconda disaster were recovered this morning.

Paris, August 22.—Diplomatic relations will not be officially suspended until the Sultan shows a disposition to persist in his refusal to settle the French demands or come to terms.

Helena, Mont., August 22.—The Rocky Mountain & Northwestern Telephone company has decided to build a line from the latter's western terminus in North Dakota to Miles City, Mont., thus completing a transcontinental telephone line, giving direct communication between New York and San Francisco or Los Angeles.

NEGROES IN CONVENTION.

National Business League in Session at Chicago.

Chicago, Aug. 22.—The Colored Men's Business League of the United States began its convention here today. The convention was called to order at 10 o'clock. Walter Fieldhouse represented Governor Yates in delivering an address of welcome, and Howard S. Taylor spoke for Mayor Harrison. On behalf of the colored business men and women of Chicago the president of the local league, W. F. Taylor, gave the address of welcome, and with this the session was well under way.

After the organization of the convention was completed by the appointment of committees the formal programme of speechmaking was taken up. Giles B. Jackson, secretary of the business league of Virginia, read a paper on negro industries in that state, showing what has been accomplished in thirty-five years "in the solution of the so-called negro problem." The negro has invested in business in Virginia, he said, \$14,426,536. On behalf of the state league he extended to the national organization an invitation to hold its next annual session at Richmond in 1902.

AN EPIDEMIC OF PEARL HUNTING

Farmers Along the Yellow River Near Grand Rapids Aroused by Discovery of Fine Gem.

Grand Rapids, Wis., August 22.—An epidemic of pearl hunting has overtaken the residents of districts along the Yellow river since the discovery of a \$300 pearl, near Dexter, a few months ago. The farmers in that vicinity, as well as several of the experienced pearl hunters from the southern part of the state, are devoting their time to the digging of clams, which they find in abundance. So far no profitable results have been obtained, but slugs and pearls of good lustre but irregular in shape are found in large quantities.

BAR ASSOCIATION MEET AT DENVER

Congressman Littlefield of Maine, Does Not Agree with the Supreme Court.

Denver, August 22.—The features of this morning's session of the American Bar association, was an address delivered by Congressman Littlefield of Maine. His subject was insular cases. He said:

"With the greatest respect for the supreme court and without intimating directly or indirectly that any of the judges were actuated in their decision in any of the insular cases by a censurable motive, I feel bound to say it seems to me that they were too profoundly impressed with the supposed consequence of an adverse decision."

In conclusion he expressed the hope that the greatest court in Christendom in the end will determine the law in accordance with correct principles.

DIED IN DEFENSE OF ANOTHER MAN

Cripple Creek, Colo., August 22.—Sam Strong, the millionaire mine owner, was shot and killed this morning by Grant Cumley in the latter's saloon where Strong had gone with friends one of whom became engaged in a quarrel with Cumley.

Fearing serious trouble and wishing to protect his friend, Strong drew a revolver, whereupon Cumley seized a shot gun and emptied its contents in Strong's head. Cumley surrendered.

TURKISH-FRANCO DISPUTE QUIET

Paris, August 22.—There was no early development in the Turkish-Franco dispute other than the announcement that the French fleet would not be sent unless the French ambassador to Turkey advised the government that such a move was necessary. This announcement is important, however, as it indicates that the government officials fear no important clash.

RACE FOR VERNON COUNTY TOBACCO; COMPETITION FOR THIS YEAR'S CROP

Prices Are in Advance of Anything Ever Secured There—Farmers Are Holding Back.

Viroqua, Wis., August 22.—The race for the growing Vernon county tobacco crop is at its height. A posse of buyers representing the American Cigar company arrived here yesterday and are covering every section of the growing district. Many buyers from eastern and state firms are also on the ground traveling from farm to farm, and together with the local dealers they form a formidable array of energetic men all determined upon securing good holdings in the new crop.

The prices offered are in advance of anything ever secured here, from nine to fourteen cents. While farmers are inclined to be very careful about signing contracts, there is a good deal of buying being done, and it would seem that nearly everything in the way of tobacco would be picked up within a few days.

There is no question but that Vernon has a larger and better crop of tobacco than any other county in the state this year, but at the best it will fall much below the tobacco of last year both in amount and in quality, notwithstanding the fact that a 20 per cent. larger acreage was planted.

E. D. Rockwood of Brodhead has purchased eight acres of desirable land near this city for the purpose of trying the Connecticut experiment of growing tobacco under canvas.

DEATH RATE IS MUCH LOWER

Decrease of Nearly Ten Per Cent Reported by Census Bureau.

LESS CONSUMPTION

Fewer Deaths Owing to Diseases Incident to Birth and Childhood.

PEOPLE LIVE LONGER

Washington, August 22.—A voluminous preliminary report containing mortality statements for the census year 1900 was made public at the census office this morning. The most important feature presented is found in the decrease in the general death rate in the registration area of 1.8 per 1,000 population, a decrease of nearly 10 per cent, and the decrease in the rates from the particular diseases to which the general decrease is due.

Advance in Medical Science. The effect of the advance made in medical science and sanitation, and in preventive and restrictive measures enforced by health authorities is still more strikingly shown in the comparative rate for the registration of 9.1 per thousand, shows the lowest mortality and Shreveport La., with 45.5, the highest.

Decrease in Nation's Death Rate. W. A. King, chief of the vital statistics division says:

"The most important feature of the results presented is found in the decrease in the general death rate in the registration area of 1.8 per 1,000 of population, a decrease of nearly 10 per cent, and the decrease in the rates from the particular diseases to which the general decrease is due."

"The effect of the advances made in medical science and sanitation and in the preventive and restrictive measures enforced by the health authorities is still more strikingly shown in the comparative rate for the registration of the cities of the country taken together. In 1890 the death rate in 271 registration cities of 5,000 or more people was 21 per 1,000; in 1900 the rate was 18.6 per 1,000 in 341 cities of 8,000 population, and upward a reduction of 2.4 per 1,000. The gross population of cities comprehended was 14,958,254 in 1890, and 21,663,631 in 1900.

Average Life Is Longer. The average age at death in 1890 was 31.1 years; in 1900 it was 35.2 years.

The total number of deaths reported in 1900 was 1,039,094; in 1890 it was 841,419. The increase therefore was 197,675, or 23.5 per cent. As the percentage of increase in the population was but 20.7, this indicates a more complete return of deaths than in 1890.

"The record of deaths upon which these statistics are based was obtained from two different sources—namely, the return by the enumerators of the deaths reported to them at the decennial enumeration, and the registration of deaths recorded under the local laws and ordinances. In the nonregistration states no comparison with 1890 are made."

Principal Causes of Death. In the registration area the fifteen principal causes of death, with the rate per 100,000 was as follows: Pneumonia, 191.9; consumption, 190.5; heart disease, 134.0; diarrhoeal diseases, 85.1; kidney diseases, 83.7; apoplexy, 68.6; cancer, 60; old age, 54; bronchitis, 48.3; cholera infantum, 47.7; debility, 41.8; diphtheria, 34.4; typhoid, 32.8; and premature birth, 35.7.

Death from all the principal diseases shows a decrease since 1890, the most notable being in consumption, which decreased 54.9 per 100,000.

FIFTEEN YEARS FOR WINTERS.

Man Who Stole \$320,000 in Bullion From Government Goes to Prison. Martinez, Cal., August 22.—Jack Winters, who stole \$320,000 in gold bullion from the Shelby Smelting works, was sentenced today to fifteen years in Folsom prison.

...RAILROAD NEWS AND GOSSIP...

Conductors and porters on the Pullman company cars are up in arms against the new style caps recently adopted by the company. The feeling has become so strong on the Pennsylvania line that the officers of the system have advised the Pullman company that he employees on the Keystone road will not be allowed to wear the freakish headgear while in the service of that company. "I look like a wild-eyed private Austrian soldier," said an ebony porter, surveying himself in one of the big plate glass mirrors of a palace dining car. "I am ashamed to go home to my wife with this crazy cap on. I feel like a fool, I look like a fool, and my friends tell me I am a fool and my friends tell me I am a cap is patterned after the style worn by a private in the Austrian army, and is ungainly and unbecoming. It has a flaring crown, flabby, concave sides, and the visor comes down into a peak."

September 13 is the day that has been designated as Railroad Men's Day at the Pan-American exposition. A committee consisting of James McBride, master mechanic of the New York Central, chairman; W. H. Marshall, superintendent of motive power of the Lake Shore; C. P. Letchworth of Platt & Letchworth; S. H. Jones, general manager of the Morgan Metal company, and Pemberton Smith of the New York Car Wheel Works, will have charge of the arrangements under the general direction of the Central Railroad club. It is proposed to have this a gathering of every class of railroad men from the presidents down to the trackwalkers. Reception and meeting will be held at the Central Railroad club in the forenoon and at 2 p. m. there will be appropriate exercises in the Transportation building.

The gross earnings of the Illinois Central for the year that ended on June 30 are estimated at \$37,000,000, the net earnings at \$12,750,000, and the surplus, above fixed charges and taxes, at \$7,000,000. To this is added \$1,100,000 from the Yazoo and Mississippi railway, making a total surplus of \$8,100,000. This is equivalent to about 12 per cent. on the stock.

The proposed extension of the Chicago & Northwestern from Sioux City, Iowa, to Centerville, S. D., which has been projected for a number of years, is said to be taking definite shape. The line will pass through Plymouth County, Iowa, and Union and Clay Counties, S. D.

Are bicycles baggage? Such was the vigorously debated question a few years ago. Various answers were given by the railways, but with the result that these vehicles were received in baggage cars and checked like trunks, sometimes free and sometimes as excess. Bicycles have ceased to travel and to annoy greatly, but now it is tricycles and quadricycles of the automatic order that apply for admission to the baggage compartment.—Railway age.

The Ann Arbor Railroad company is said to be the principal backer of a scheme to purchase 400 acres of land near Frankfort, lying between Lake Michigan and Crystal Lake, as a site for a great Chautauqua assembly grounds. A deposit has been made by the railroad company to bind the bargain for the land, and it is expected that the deal will be closed within a short time.

The Boston & Maine has given a building and \$6,000 for a Railroad Men's Y. M. C. A. at Boston, and the members of the association are to raise a similar amount by subscription. Work has commenced on a commodious building on Beverly street, and there will be under the roof a complete clubhouse and hotel, with accommodations for rest, sleep, bathing, eating and play, besides libraries and reading rooms for educational purposes.

As an indication of how busy the roads are getting to be and how fully the shops are of work the statement is made that at present there are 50,000 cars of all kinds building in the various shops, and 1,000 engines, mostly for American roads. The Southern Pacific has ordered 500 oil tank cars to be made quickly to handle oil to the companies owning tanks that supply the fuel to the oil-burning engines.

day will be ladies' free night. Seats on sale Friday.

Miss Amelia Bingham will present for the first time in this city, at Myers Grand opera house on April 1 her production of Clyde Fitch's brilliant play of social life, "The Climbers," which, because of its perfection of detail in acting, mounting and costuming, established her in the foremost rank of theatrical producers and in the unique position of America's only actress-manager. This new and original comedy will be interpreted by a company of America's most distinguished players and will employ the same scenic and sartorial appointments as at the Bijou Theater, New York, where "The Climbers" ran for 200 nights to record breaking receipts.

Wm. A. Brady's production of the new musical snap shot by R. Melville Baker, entitled "Foxy Grandpa," which serves to star Mr. Joseph Hart and Miss Carrie DeMar, has from all accounts proved to be one of the greatest and most substantial musical comedy successes of the present season. The first week's business of this attraction at Atlantic City, N. J., was close to \$7,300.00, while the second and closing week bids fair to outvie that of the first. "Foxy Grandpa" seems to be literally "in the air." Perhaps no piece of modern times has been so condemned previously to this production as was "Foxy Grandpa." Thus its success is all the more strong. Joseph Hart and Carrie DeMar have the greatest "parts" in their entire stage career. Conservative estimates place the profits of "Foxy Grandpa" to reach \$100,000.00 the coming season.

POULTRY RAISING A GOOD INDUSTRY

Poultry raising is one of the increasing industries of the farmer in Wisconsin and is to be encouraged, yet the neglect of selecting a breed and lack of proper management, they are far from being up to the standard of poultry raisers.

We are safe in saying that ninety per cent. of the farmers today in Rock county have a mongrel breed of chickens. Certainly the breeding of any poultry is distinct, or should be, from that of producing eggs and poultry for the market, yet four or five breeds are to be seen in the flocks of the farmer in the county today.

The farmer is of necessity a breeder of poultry. The two go hand in hand, but there is no line of work on the farm so sadly neglected as is that of the poultry department.

We can cite instances where a flock of 100 hens properly managed, has cleared more money on settling up accounts at the end of the year, than they made on 100 acres of land.

Some one will now say: Which is the best breed to keep? If we ask the breeder of the Plymouth Rock—Why, certainly his; then he will give you all the points in favor of his breed for they suit him the best and give a good profit. Again, ask a breeder of another breed of fowls, and this party will proceed to tell you that his fowl is the only kind to raise; and every one will be praising his own birds; so that anyone contemplating going into the poultry business is at a standstill as to which breed to select.

If any one is going to raise fancy poultry then is not so hard to select, for and breed, well managed, will prove profitable, but if he is engaged in the work just for profits and the fine points of the fowl are not taken into consideration, then we would advise him to select a breed, one that would be a good sized fowl, which finds a ready sale in the market.

The smaller breeds are conceded to be better egg producers, yet the large birds can be made to lay a large number of eggs under an entirely different method of feeding, for any breed of fowls can be made to lay with proper feeding.

The reason that so many breeders assert that their fowl is better than that of their competitor, is that they have managed their fowl in such a manner as to prove profitable.

If you have a baby in the house you will wish to know the best way to check any unusual looseness of the bowels, or diarrhoea so common to small children. O. P. M. Hollday, of Deming, Ind., who has an eleven months' old child, says: "Through the months of June and July our baby was teething and took a running off of the bowels, and sickness of the stomach. His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once." THE THOM-BUGGS WEDDING EVENT

The Ceremony Was Solemnized in St. Paul's Lutheran Church at 7 O'clock Last Evening.

Miss Bertha Buggs and Fred L. Thom, both of this city, were happily married last evening, the ceremony which united their future lives being solemnized in St. Paul's German Lutheran church at 7 o'clock. Choice cut flowers in abundance beautified the interior of the church the decorations being especially handsome. Relatives and friends of the happy couple filled the church and witnessed the impressive ceremony with which the Rev. J. C. Koerner tied the nuptial knot.

After the ceremony a large reception for the bride and groom was given at the home of the bride's parents, Mr. and Mrs. William Buggs, 260 South Academy street. An elegant wedding supper was served at prettily decorated tables and the evening was happily spent in congratulating the newly married couple, feasting and general merry making. Both the bride and groom have an extensive acquaintance in this city and enjoy the sincere esteem of all who know them. The bride is a most estimable young lady and the groom is a worthy and enterprising young man. He is a painter by trade. Mr. and Mrs. Thom have the best wishes of their many friends and acquaintances.

At Monte Carlo. The principality of Monaco is surrounded on all sides by the French Department of Alpes Maritimes, except to the south, where it borders on the sea. Its total area is eight square miles and its present ruler is Prince Albert of Monaco, who succeeded his father in 1899. It is picturesquely situated, and many visitors are attracted by the mildness of its climate and its beauties as a health resort, but the main attraction to the great majority of its visitors is the legalized gambling at the Casino of Monte Carlo. The Casino Company, out of the profits of the gambling has practically to bear the cost of spiritual and temporal government for the principality, and in addition \$250,000 annually to the Prince for the concession. Last year the company paid \$45,000 for grants to bishop, clergy, convents and educational institutions, and \$30,000 in gifts to charity. They also paid \$100,000 for army, police, law courts and expenses of government.

Adam Tepp Married. Adam Tepp of Milwaukee, a graduate of the State School for the Blind, was married to Miss Nora Dorsey of Chicago, last evening at Milwaukee by Justice Schettler. Mr. Tepp is forty-six years old and has been blind since he was a boy. He is a broom maker and grocer at 1223 Twenty-Third street, and since his graduation from the Janesville school he has amassed a fortune. He has two children by a former wife who died three or four years ago. His bride is thirty years old and has been a music teacher. She is not blind—except with love.

The Stimulus of Pure Blood

That is what is required by every organ of the body, for the proper performance of its functions.

It prevents biliousness, dyspepsia, constipation, kidney complaint, rheumatism, catarrh, nervousness, weakness, faintness, pimples, blotches, and all cutaneous eruptions.

It perfects all the vital processes.

W. P. Keeton, Woodstock, Ala., took Hood's Sarsaparilla to make his blood pure. He writes that he had not felt well but tired for some time. Before he had finished the first bottle of this medicine he felt better and when he had taken the second was like another man—free from that tired feeling and able to do his work.

It Has Happened

More than once that a child has been carried off by an eagle. When such a thing does happen the press rings with the story. There's not a line given by the press to the babies carried off daily by disease. It isn't the fact of the child being taken away that is startling or interesting, it's only when the method of taking off is novel that it excites interest. How many children die who might have been saved if the mother who bore them had been able to give them strength and vitality. Dr. Pierce's Favorite Prescription makes healthy mothers and healthy mothers have healthy children, strong enough to resist disease if they are attacked.

Mrs. Axel Kjer, of Gordonville, Cape Girardeau Co., Mo., writes: "When I look at my little boy I feel it my duty to write to you. This is my fifth child and the only one who came to maturity; the others having died from lack of nourishment—so the doctor said. This time I just thought I would try your 'Prescription.' I took nine bottles and to my surprise it carried me through and gave me as fine a little boy as ever was. He weighed ten one-half pounds. He is now five months old, has never been sick a day, and is so strong that everybody who sees him wonders at him."

Dr. Pierce's Pleasant Pellets keep the bowels healthy and regular.

LATE TELEGRAPHIC NEWS

STRIKE MEDIATORS GO EAST

Board of Arbitrators and Trust
Representatives to End War.

THEY WILL SEE J. P. MORGAN.

Secretary Tighe Thinks South Chicago
Mill Men Will Go Out Before End of
Week—President Shaffer's Views—
Other Developments.

Pittsburg, Pa., Aug. 22.—Officers of the Amalgamated association seemed to have settled down to a purpose. They say that they will wait for the trust to make overtures for peace. This wait, according to some, will be quite a long one. Others express the belief that it will be shorter than most persons expect.

John Bindley, president of the Pittsburg Chamber of Commerce; Joseph Bishop, secretary of the Ohio Board of Arbitration, and Frank Caldwell, said to be a representative of the steel combine, have gone to New York, however, to try to mediate the differences between the steel workers and the United States Steel corporation. President Shaffer says he invites peace, and is prepared to accept any honorable terms of settlement. He says he is fully satisfied with the way the strike is progressing, however, and believes the workmen will be victorious in the end.

Firebug Story Untrue.

Regarding the attempt made to fire the plant of the Monongahela Tinplate mill in the South Side, it was said that the very fact that a leak in a gas pipe in the mill was so open that an accumulation of gas would be impossible, gave the story a fishy flavor. No attention was paid to it. It was reported that some one was believed to have knocked off a gas cock in one of the gas pipes of the mill and allowed the gas to escape and then threw a lighted newspaper in the vicinity. Had it ignited the gas, it is said that no harm could have come from it.

John Sternsdorff, who claimed to have been among the strike breakers brought to the Monessen mill by the famous Alabama Joe, was at Amalgamated headquarters today. He said that the crowd were gathered in Richmond on the ground that they were wanted to work in a new mill and no mention was made to them of a strike being on. He declared that he escaped from the plant at the first opportunity and came to Pittsburg. Two others came with him. Sternsdorff said that he was a rougher in a mill in Richmond and would never work in a non-union mill under the conditions existing in Monessen. He believed that others would quit.

Willing to Arbitrate.

When Shaffer of the Amalgamated association was asked for a clear statement regarding the position he held on further peace efforts, he said: "I am willing to leave this whole question to arbitration, but I am not seeking arbitration. I believe that this trouble is going to be settled. Neither side wanted to carry this fight indefinitely. They cannot destroy the Amalgamated association, and even should they do so all the other trades unions in the country would take up the fight where we left off, and continue it until a settlement was forced from the trust. I believe, however, that as soon as both sides cool down a little there will be a disposition to talk peace and arbitration."

The Amalgamated officials say that during the last few weeks over 150 employees of the Carnegie mills have been discharged for no reason except that they belonged to the new lodges of the Amalgamated association. They claim to have plenty of evidence to prove this.

Ask Police Protection.

The police department was asked for police protection for three carloads of non-union workmen, who arrived at the Union station, Pittsburg, at 2 o'clock Thursday morning. The request was made by officials of the American Tin Plate company. The men are intended for the Star tin mill, Twelfth street, two blocks from the Union station.

There was a small riot at the Pennsylvania Tube works last night. Some foreigners collided with a dozen citizens they mistook for strike breakers. The police stepped in and restored peace before any one was hurt. Later a number of arrests were made.

DAVIS STILL HAS HOPE.

Steel Leader Does Not Despair of Inducing Men to Strike.

Chicago, Aug. 22.—Vice President Davis of the Amalgamated Association has gone to Joliet, thoroughly disgusted and discouraged in his efforts to induce the South Chicago steel workers to strike. He says he has not given up hope of holding a big mass-meeting next Sunday, at which a vote to strike will be passed. He may bring with him labor leaders from the prison city.

The meeting that Davis called for yesterday afternoon was a fizzle. It was postponed until evening, but even then the gathering was not a success. Instead of the sixty men that were expected only twenty-five came and many of these stayed only long enough to express their opinions.

The officers of the two lodges have issued a statement to the public. Davis had been positive that he could secure forty men who were enthusiastic enough to vote for a strike. With these forty he figured that he could badly cripple the Illinois steel plant.

Among the men who went to Lakeside hall during the evening, there were a number who favored striking, but they were unwilling to go out unless the majority did. Independent action, upon which Davis had based his hopes, was decidedly against the inclinations of the men.

The Illinois Steel company's officials deny that any men have struck, and that only a few are absent from sickness. Davis, on the contrary, maintains that six men came to him and announced that they had struck, and were ready to assist him in any way possible. He gave them their instructions, and they went out to work among the men.

A reply has been received from President Shaffer in regard to his coming to South Chicago. He said that he did not think he could come himself, but that if possible he would send Vice-President John Morgan to address the mass meeting.

"The prospect does not look encouraging," said Davis, before leaving for Joliet. "From expressions of sentiment that had come to me, I was confident that forty men could be secured who would be willing to join their fellows in striking for the good of organized labor. But I find they are opposed to going out by twos and threes and sixes."

An Uncivil Britisher.

Southampton, Aug. 22.—A. Bendon, coxswain of the flagship Chicago, died Saturday night of asphyxiation. Arrangements were made to bury the coxswain ashore, but the local coroner declined to accept the statement of the ship's doctor, which was certified by the captain, and refused to permit the landing of the body without a post-mortem examination and an inquest. The Chicago therefore had to put to sea to bury the deceased officer. It is alleged that the action of the coroner, which was most discourteous, is being considered by the officers of the American embassy.

A Russian View.

St. Petersburg, Aug. 22.—The Novoe Vremya says: "President Castro is evidently desirous of declaring war upon Colombia in order to strengthen his weakening authority. What will be the outcome of all this complicated affair it is difficult to say. Possibly war may result, after all, between Colombia and Venezuela. In that case we must expect that the United States will not fail to intervene in this quarrel between two of its neighbors."

School Board Sent to Jail.

Omaha, Neb., Aug. 22.—The City Council had the School Board hauled to jail in a patrol wagon because the patrons of learning refuse to testify before the Council, which is making an inquiry into the Board of Education's affairs.

The School Board replied that the fines to which it is legally entitled were used in the Council's corrupt practices.

The Council replied by stating that as a result of the inquiry, which the Board refused to attend, the Council now places the educators under arrest by virtue of the ordinance that gives the Council the right to summon witnesses.

Mob Eight Downtrodden.

Chicago, Aug. 22.—Elder Mercer of Dowle's Christian Catholic Church and Louis Christianson, the follower of Dowle who allowed his wife, who was burned in the South Chicago fire several weeks ago, to die without medical attention, and six women "disciples" were welcomed to South Chicago last night with several cases of rotten eggs and baskets of spoiled vegetables when they attempted to hold a meeting at Ninety-second street and Commercial avenue.

SILVER WINS OUT IN IOWA

Democrats Reaffirm the Kansas
City Platform.

AMEND COMMITTEE REPORT.

T. J. Phillips of Ottumwa Is Nominated
for Governor Over H. J. Steiger by
Close Vote—A Lively Battle Over the
Last National Platform.

Governor T. J. Phillips
Lieutenant Governor E. T. Ferguson
Supreme Judge John Shortley
Railroad Commissioner A. C. Brice
Superintendent of Instruction

Des Moines, Aug. 22.—Silver won in the Democratic convention here. The vote for reaffirmation of the Kansas City platform was 661 3-5 and the vote against it 558 2-5. For head of the state ticket the vote was even closer. T. J. Phillips of Ottumwa being nominated for governor on the second ballot by a majority of only six over H. J. Steiger of Toledo.

The test on the platform came on the motion of the silver men to substitute a plank of reaffirmation for one of silence, as reported by a majority of the resolutions committee. The question was not debated, except that former Congressman Wait Butler pleaded for the issue when he moved the adoption of the substitute.

Following is the text of the victorious substitute for the preamble reported by the majority.

"We, the Democrats of Iowa, in convention assembled, hereby reaffirm the principles of the Democratic national platform adopted at Kansas City, July 5, 1900, and without surrendering our convictions or abating our loyalty to our national policies we believe this campaign to be particularly one that should be confined to state issues."

John Lewis of Ottumwa nominated Mr. Phillips for governor, and Judge J. R. Caldwell of Tama named Mr. Steiger. No other nominations were made formally, but when the ballot was taken other names were added by delegations. The first ballot resulted as follows:

Phillips 528
Steiger 562
John M. Redmond of Cedar Rapids, 20
J. B. Weaver of Colfax, 13
George W. Ball of Iowa City, 10

On the second ballot Mr. Phillips received 595½ votes to 589½ for Mr. Steiger.

It Saved His Baby.

If you have a baby in your house you will wish to know the best way to check any unusual looseness of the bowels, or diarrhoea, so common to small children. O. P. M. Holliday, of Deming, Ind., who has an eleven months' old child, says: "Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach. His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once." For sale by People's drug store and King's pharmacy.

Resented Umpire's Decision.

Terre Haute, Ind., Aug. 22.—Ora Jennings, who was umpiring a game of baseball at Farmersburg yesterday afternoon, was struck over the head with a bat by Marcellus Forbes, one of the players, who was incensed by one of the decisions. Jennings' skull is fractured and he cannot recover. Forbes was lodged in jail at Sullivan. He is an ex-convict and served a term in the penitentiary from this county for attempted man-slaughter.

Teachers Reach Manila.

Manila, Aug. 22.—The United States transport Thomas, having on board 600 teachers, has arrived, but their landing has been delayed by a typhoon. The teachers will probably get ashore tomorrow. Preparations have been made to give them a great reception. The government has prepared a temporary barracks, on the exposition grounds, for their accommodation.

WISCONSIN WEATHER FORECAST
Probably showers this afternoon or tonight.

One of the churches in this city is attempting that which has been attempted for twenty-five years, with but varying results. The great cities of this country have been striving to keep and reach the boys through the agency of the churches, by holding out to them the bait of a boys' club. The intent and purpose of these clubs has been the same, but it has been more or less marked; improvement of character and religious instruction have been the objects more or less apparent in the formation of boys' clubs in churches. Pleasures of one kind and another have been used as a cement to hold the boys in the church, indoor and outdoor sports, educational instruction, lectures and manual training have served to keep up the interest, but even they fail to a certain extent when the boys are asked to sandwich in between their sports a prayer meeting, or a bible class, with a missionary talk to spice things up a little. So many boys' clubs have failed because of the insistence on religious instruction, that one of the great questions of the church is how to hold the boys in the church. The clubs generally succeed up to the point of attempting religious instruction, when disagreement results and sometimes failure crowns the efforts of the pastor and a faithful few who have at heart the moral uplifting of the boy. The attitude of some of the church members is such that some clubs date the inception of their success to the time when they parted company with that organization, and this need not cause surprise to any one, for it is perfectly natural for boys to enjoy relief from restraint and criticism.

Religious atmosphere with voluntary religious training or education is about as far as successful boys' clubs can go towards attaining the pastor's ideal, and if it is remembered that the loudest influences are not always the most powerful, but those that are persuasive, it will be possible to preach to these same boys without their realizing it.

Ever since the World's fair at Chicago Nicola Tesla has astonished the world from time to time by promises of what he intended doing. At the Chicago fair he did actually startle the world by taking through his body a current of extremely high voltage and frequency, and received from the Westinghouse people a salary of \$5,000 per month for exhibiting their electrical machines. At that time this man eclipsed the fame of the greatest inventors the world has ever seen, Thomas A. Edison, because his career was meteoric in duration and brilliant in character. This man has now promised us to construct a system of wireless telegraphy which can be used across the Atlantic without the necessity of relay stations. In all probability this feat will be accomplished some time, but the splurges Tesla has made in his proposition to signal to Mars, and to drive the arc and incandescent lamps into the scrap pile, which have resulted in simply a splash, have made us skeptical as to Tesla's ability to do what he would like to do. Edison rarely says anything about what he is going to do until it is done, and the American people have been fooled by so many Keeley's that they are more interested in accomplished facts than in futures.

Let Tesla send a message of congratulation to King Edward at his coronation by wireless telegraphy and he will receive his reward in full measure running over.

Although attracting a great deal of attention, most of which is adverse criticism, yet little is really known about the Zion city being established by this man, except by those directly interested. Dr. Dowie has purchased 6,500 acres of ground on the shores of Lake Michigan, six miles north of Waukegan. The Temple, Dr. Dowie's home is beautifully situated on Sheridan Drive, near where stands the temporary amphitheater serving for devotional purposes. Dr. Dowie has imported a great number of lace makers from Nottingham, England, and has erected buildings filled with

machinery for the manufacture of this beautiful fabric. Near the lace factory is a large saw mill and a machine shop. Several stores and shops are running, but no liquor or tobacco are sold and no profanity or gambling are allowed.

As a Congregational minister for twenty years, he was constantly in trouble over his views on healing, which finally made it impossible for him to longer remain in the church. It was at this time that he established the Zion tabernacle in Chicago, and preached to thousands every Sunday in the auditorium for over three years.

Becoming a rich man he established a bank and bought large tracts of real estate.

A careful student of the New Testament, can see why the doctor takes the peculiar position he does, being steeped in the atmosphere of that portion of the bible.

We have lost more respect from intelligent countries because of such furious mob violence as that of Pierce City, Mo., recently, than we can regain in several years of respect for law and justice.

FACTORY GIRLS GET A HALF HOLIDAY

Twenty-Six Young Women Employed by Thoroughgood & Co. Go to See Canning Factory.

This afternoon the twenty-six young women employed by Thoroughgood & Co., at their box factory, enjoyed a half holiday and were treated to a novel outing by their employers. About 1:30 o'clock the merry party assembled at the North Main street factory and took carriages for a pleasant ride to Spring Brook. The object of the visit was a tour of inspection through the canning factory and the Choate-Hollister furniture factory to give the young women an opportunity to see something of the immensity of these two local enterprises. They enjoyed the trip greatly. The first visit was paid to the canning factory where the party was shown through the entire department and the entire process of canning goods was explained to them. At the Choate-Hollister factory similar courtesies were shown the visitors who returned to the city feeling that the afternoon had been pleasantly and profitably spent and grateful to their employers for the rare treat.

Thoroughgood & Co. take a good deal of pride in the fact that girls employed in their factory rarely resign their positions unless they do so for the purpose of getting married. Mr. Thoroughgood says that even then his former employees do not forget them and many whose homes are many miles away never return to Janesville without calling at the factory.

To Celebrate Silver Wedding Mr. and Mrs. Louis F. Knipp have issued invitations for the celebration of their silver wedding on Tuesday evening, September 3. Mr. and Mrs. Knipp will entertain their friends in elegant style at East Side Odd Fellows' hall, the invitations being issued for 7:30 o'clock. There will be between three hundred and four hundred guests and dancing will be the order of the evening. Smith's orchestra has been engaged for the occasion and while dancing is going on in the upper hall, supper will be served in the dining room below.

With Defy Fire's Terrors Reading, Pa., Aug. 22.—Professor William Kretz of the Berks Occult Science Society is arranging for a more dangerous experiment than burying a man alive. He says he proposes to fill a tank with oil gasoline, hypnotize one of the members of the society and stand him in it. A match will be applied and if Professor Kretz' ideas are correct all the oil will be burned without leaving the slightest scar on the subject's body. Professor Kretz has called a meeting of the society for Thursday night.

Mathiessen Left \$5,180,000. New York, Aug. 22.—The estate of Franz O. Mathiessen, the sugar magnate who died in France, has been appraised at \$5,180,000. Mr. Mathiessen owned a country seat at Irvington-on-the-Hudson and a town house in 5th avenue.

JOHN P. CULLEN HAS PART OF CONTRACT

Janesville Man Will Build the Carnegie Library at Freeport, Minn.—Two Stories High.

Winchester & Cullen were the successful bidders for the building of the \$30,000 Carnegie library at Freeport, Minn. The successful bidders were Thomas Winchester, mason contractor of Rockford, Ill., and John P. Cullen of this city. Their bid for doing the work was about \$25,000. This does not include the steel book shelves, interior decorating, plumbing and heating.

The building will be two stories high of brick with stone and terra cotta trimmings and will be modern in every particular. Nine other bids were received for doing the work. Winchester & Cullen underbid the entire bunch and received the contract. They will begin work on the new building at once and expect to have the roof on by January first. The contract calls for the completion of the building by June 1, 1902. Patton & Miller, the architects of the Freeport building have plans which have been accepted for six other library buildings in different parts of the country. None of them are less than two stories high.

Mr. Cullen is of the opinion that with a few changes in the plans of the Carnegie building for this city that it could easily be built within the appropriation, and be two stories high. A number of the library board in this city are in favor of building the library but one story high, even if a two story building could be built within the appropriation. Many people interested in the building think that on account of the lot being a low one, the board should not think of building less than a two story building.

CHARGE 5 CENTS TO SHAVE YOUR NECK

Boss and Journeymen Barbers Come Together and Agree on a Raise of Prices.

Some time ago the Journeymen Barbers' union of this city established a scale of prices for all work done by union barbers in union shops. For the last two weeks most of the shops in this city have had signs displayed in prominent places, notifying their customers that after September 15th five cents extra would be charged for neck shaving. A number of the boss barbers of the city did not fall in line with the movement started by their employees, because they thought they should be consulted as to how their shops should be run, and it looked as if the move might be a failure.

This morning some of the boss barbers started out with a petition and secured the names of all of the boss barbers in the city. As the matter now stands if you get your neck shaved after September 15, you may expect to pay five cents for it. The barbers claim that it is no more than right that they should be paid for this work. One of them gives as a reason for the move that on a busy Saturday a man will shave from fifteen to twenty necks for which he gets no pay and is out just that much valuable time. It was for this reason that the movement was started.

Pretty Social Event Miss May Valentine was the hostess at one of the prettiest social events of the season yesterday afternoon. Her guests were a few of her lady friends whom she entertained charmingly at one o'clock luncheon, given at her home, 157 Park Place. The luncheon was given in honor of Mrs. F. E. Behrman of Chicago, who is visiting her parents, Mr. and Mrs. J. W. Nash. The lunch was an elaborate affair of several courses and the appetizing viands were very prettily and daintily served. It was a small party so far as the number of guests was concerned but it was a delightful success and Miss Valentine's guests were charmed with the happy manner of her hospitality.

Fire in a Chicken Coop. An alarm of fire sent in by telephone from Dr. J. B. Whitting's residence about 1:20 p. m. called the department to that point. The fire was in the large chicken coop belonging to Edward V. Whitton, located near the doctor's residence. It was extinguished by Edward Spaulding before the department arrived and before any serious damage was done. There was about three hundred chickens in the coop which Mr. Whitton runs in connection with his incubator. It is thought the fire was started by some boys that were out behind the chicken coop smoking.

Madison Grocers' Picnic

About one thousand people passed through this city today on the excursion over the St. Paul railroad from Madison to Lake Geneva given by the Madison Grocers' association. The first section of ten coaches, two parlor cars and a baggage car arrived about nine o'clock and the second section of eight coaches, a short time afterwards. They went over the Janesville & Southeastern from this city to Watworth where they took the trolley line to Fontana Park. The fare from Madison and return including the trolley ride was only \$1.25.

Coldest Spot on Earth

The coldest spot on earth where human beings exist is a little town in the valley of the Lena, in Siberia, called Verchajansk. Hundreds of people in that village have lived to a ripe old age, and yet the thermometer in that town has been known to descend to the cavernous figure of 98.4 degrees below zero. The average temperature in Verchajansk during the winter months is 74.8 degrees below zero. The Verchajansk soil is permanently frozen to a depth of 330 feet, and yet, during the month of July, the temperature of Verchajansk is on the average of 69 degrees above zero, the same as that of Paris.

The Canal Boatmen of Holland.

The canal boatmen of Holland spend the greater part of their lives on their vessels. On them they eat, drink, and sleep; and not only they, but their wives and families, also. Indeed, the canal boat is their only home. A canal boatman away from his boat is like a fish out of water and just as helpless. From one year's end to the other he is playing along on or another of the many canals which everywhere intersect the land, carrying goods to all parts of the country. This being so, it is easy to understand why he should try to decorate and beautify his boat to the best of his ability. To that end he has the forepart of the craft covered with soil and planted with all kinds of gay flowers, turning it into a veritable flower garden; whilst the deck or living house is adorned by a plentiful application of red, green, and yellow paint. The Dutch boatman, besides being a lover of the beautiful, has also an eye to the needs of the domestic department, and with this end in view converts the after-part of his boat into a vegetable garden, where all plants useful for the pot are cultivated. On some boats hens, ducks, and goats are also kept.

RED LETTER DAY FOR JANESVILLE; RALLY OF VETERANS AND CHILDREN

Joint Meeting in the Court House Park on Thursday,
August 29, of the Rock County Sunday Schools
and the Ex-Soldiers' and Sailors' Union.

With two such gatherings as the Rock County Sunday school rally and the annual reunion of the Rock county Soldiers and Sailors' Union, next Thursday promises to be a red letter day in the history of Janesville. Although both events were arranged so that the two mammoth gatherings will work harmoniously together.

A meeting of the veterans and the Sunday school workers in authority has been held and those most interested in the management of the events are inclined to think that it is exceedingly fortunate that they were planned for the same day.

The Sunday schools of the county will assemble in the city early in the morning. Some delegations are to come by train and some by carriages. All have been assigned to some particular meeting place on the west side of the river and at ten o'clock the schools will all meet and form one great procession. The parade will move through the heart of the city to the court house park where a part of the exercises will be held before dinner. Meantime the veterans of the county will be holding their business meeting at Post Hall.

The twelve o'clock whistles will be the signal for dinner for both parties. The veterans will be served by the ladies of W. H. Sargent No. 21. W. R. C., who will have charge of the dinner for the soldier boys. The dinner will be served in the park and at the same time near by Sunday school delegations will be enjoying a picnic dinner.

At one o'clock the exercises of the Sunday school rally will begin again and will continue for one hour. There will be stirring addresses and some exceptionally fine music, both vocal and instrumental having been secured.

At two o'clock the veterans will take charge of the program which will include the laying of the corner stone of the monument which is being erected by the county in mem-

ory of its heroes of the civil war. The balance of the afternoon the exercises in the park will be exclusively by the veterans and the program will include many prominent Grand Army men of the state as well as Senator J. M. Whitehead, who is to deliver the address at the laying of the corner stone of the monument.

The Sunday school workers are especially well pleased with the arrangements for the day as they expect that the greater number of their people in the park will remain to witness the ceremonies of the laying of the corner stone and the program which will follow. In their opinion it will be a rare opportunity for the young people of the Sunday schools to witness such a gathering of the survivors of that fierce struggle for the maintenance of the union. It will be an inspiration to them and an impressive living lesson in patriotism which all those who witness it will never forget.

People in this city do not seem to realize what a large affair this county Sunday School rally is likely to be. There are over 8,000 people belonging to the Sunday schools of this county and each school is endeavoring to send so large a delegation as possible.

There is a prize offered for the one sending the largest delegation. Beloit will send four schools and the schools of the surrounding county will be present with very few members missing. If only half of the Sunday school people of the county turn out it will mean a gathering of thousands of people. A rally of the Sunday schools of the county was held in this city twenty years ago in what is now Forest Park and over 10,000 people were present.

The Sunday schools of this city are especially urged to turn out in as large numbers as possible. Most of them are somewhat disorganized during the summer months but the management is anxious that the Janesville schools should make as good a showing and extra effort to secure large representations from each school is urged.

About one hundred suits against the policy holders in this company were started by Attorney M. P. Richardson to collect a special assessment. About fifty were started in Justice Reader's court and about fifty in Justice Reader's court.

Many of the policy holders against whom suits were instituted have paid the assessment. Pethers, Jeffris & Mount appear as attorneys for about fifty of the defendants and these suits have not yet come up for trial.

SOLD VALUABLE PIANO
Bush & Gerts Piano Co. Place a \$500 instrument here

Robert B. Kanouse, in the interest of the Bush & Gerts Piano Co., Chicago, has sold to Atty. John Fisher of this city a Bush & Gerts piano valued at \$500. Finished in mahogany it is only in justice to state that it is one of the finest pianos ever installed in Rock county. The Bush & Gerts Piano company is a firm that needs no introduction in this section of the state. Their pianos possess superior artistic design, excellent in tone, quality and touch.

Mr. Kanouse is well-known to the citizens of this section having been leader of the Presbyterian church choir. The Bush & Gerts company are at all times anxious to quote prices and show the superior points of their pianos.

BULLET CRASHES THROUGH WINDOW

Young Lad on South Jackson Street Indulges in Promiscuous and Unlawful Shooting.

Yesterday while Mrs. William Saxby and children were sitting in their home at 207 South Jackson street they were startled by having a rifle ball come crashing through one of the front windows shattering the glass. They could not discover where the ball came from as there was no one in sight so they sent for Chief Hogan. He called at the house and investigated the matter a little and decided that the ball came from across the street in the neighborhood of Mary Kimball's mission.

He called at Miss Kimball's and found that her nephew a lad by the name of Marsden, owned a small rifle and probably did the shooting. Miss Kimball and Chief Hogan started to look the lad up. He was onto his job and evidently expected trouble for when the chief and Miss Kimball came in sight he went over a high board fence in the rear of the mission and soon got out of sight. Miss Kimball promised the chief to see that the young man gave up his rifle and with that understanding the matter was dropped.

John Heimer Fined
John Heimer, a bartender for Fred Lutz, who runs the Ottoman house at the corner of Milwaukee and Academy streets, appeared before Judge Fifield of the municipal court to answer to the charge of shooting in the city limits. Heimer is the young man who shot the hole through the window at McShane's place on Monday night. He could give no good reason why he did the shooting at that time and said that he was under the influence of liquor. Judge Fifield imposed a fine of \$4 and costs in all \$6.55, which was paid.

MARTIN LUTHER'S MISFIT.
Life insurance was unknown in Luther's time 1483-1546, or he might not have written: "If a man is not strong at twenty, handsome at thirty, feared at forty, and rich at fifty, he will never be strong, handsome, learned, or rich." That depends, so far as being "rich" is concerned, on what Luther meant by "rich." A man who gets to be fifty in these days can be what he would call "rich" if he then had nothing by having provided for himself when he was at the strong and handsome ages with the ownership of a good endowment policy such as the Aetna Life issues every day. He could not thus acquire riches "beyond the dreams of avarice." It is true, but he could have enough to make him comfortable as he looked down the downgrade. Luther's remarks suited his times; but in the face of Life Insurance on the endowment plan it is a misfit. Let me explain the plan to you.

STEPS TAKEN TO ERECT A MONUMENT IN HONOR OF COL. EDGAR O'CONNELL

Wisconsin Soldier Whose Name Heads the List of
148 Second Regiment Men Killed in Action.

Word comes from Washington, D. C., that a monument is to be erected over the grave of Colonel Edgar O'Connell, a Wisconsin soldier, whose name heads the list of 148 soldiers of the Second Wisconsin regiment killed in action. That is a post of honor which indicates deathless fame on the rolls of the regiment of Wisconsin soldiers, which bears the honorable title of being the regiment which lost more men in the civil war, in proportion to the number of enlistments, than any regiment that served among the millions of men that rushed to the defense of the Union in that greatest of all modern wars.

Much has been written about the glorious record of the Iron Brigade, and about the remarkable achievements of the different regiments of that organization, notably the Second Wisconsin, which bore the brunt of many desperate engagements, as is attested by its record of men killed and wounded in action. Not so much, indeed very little, has been said about the gallant soldiers who led the men to victory, or who trained the raw youths who formed the bone and sinew of the regiment and brigade in the preparatory days of the war, when the soldiers were being drilled for the mighty contest which sprinkled Old Virginia with blood and dotted the fields of that state with graves. The names of Gibbon, Bragg, Fairchild, and Cutler are most familiar among the heroes of the Wisconsin soldiery. Less is known of the gallant O'Connell, who had the honor of preparing the Second Wisconsin for the glorious record it was destined to make.

Edgar O'Connell was a Wisconsin boy, a trained soldier of the class which the United States government prepares for military life at the West Point military academy. He graduated in 1854 and after serving in the United States regular army four years he resigned and moved to Beloit, Wis., with the purpose of entering into the practice of law. Here he was found when Wisconsin, in common with all the states of the union, was looking for trained soldiers to

command her troops in the field. He was made colonel of the Second Wisconsin Aug. 2, 1861, and his appointment created something of a mutiny in the ranks of the Second. The men did not know O'Connell, and they snared in the hope of some of the junior officers that some of the latter might be moved up in the line of command.

His selection was the making of the Second, then undisciplined, untrained regiment. The men were brave, but they needed soldierly training and that O'Connell gave them, endeavoring himself to all. Through a year of service he was with them, before he fell, on Aug. 28, 1862, at the battle of Gainesville, which it will be recalled, was a part of the terrific battle of second Bull Run, which lasted several days. Colonel O'Connell was killed on the field, fighting with his men, but he left with the old Second the discipline and soldierly training which made it so valuable a part of the Iron Brigade throughout the war. He was buried on the field. Later his remains were removed to the Congressional cemetery at Washington. A few years before the death of Colonel O'Connell's wife her consent was obtained that his remains be removed to the Soldiers' cemetery at Arlington. There they lie, and there it is proposed to erect the monument to his memory.

Captain W. W. Jones, Jerome F. Johnson and Hugh Lewis have been appointed a committee to raise the necessary funds. It will be a working committee, and there is no doubt that in a very short time a suitable monument will be erected at Arlington, to mark the last resting place of Colonel O'Connell.

The committee has prepared a circular letter to be addressed to the surviving members of the Second Wisconsin, calling upon them for subscriptions to the monument fund. That circular will soon be sent out. There are no members of the family of O'Connell living, and the work will be a loving testimonial from his comrades in arms, and from them alone.

NEW BISHOPS FOR PHILIPPINES.

Most of Them to Be Americans—Taft Names Native Governors.

Manila, Aug. 22.—Influential Catholics here say they have reliable information from Rome that the Philippines will have nine new bishops, seven of which will be presided over by Americans, giving the islands an archbishop and twelve bishops. Gov. Taft expresses satisfaction with the results of his recent trip through the northern provinces to establish civil government there. He thinks the great rivalry between the various political factions speaks well for the interest felt in the government. Wherever it was possible natives were invariably appointed governors. The Philippine commission arrived at Laag, North Luzon, yesterday, and received an unusual reception, some of the delegates welcoming them having traveled forty miles through a mountainous country. There are no signs of hostility to the Americans in the province. The inhabitants have been struggling with the most tangled politics. The military authorities advocated the appointment of an American for governor of the province, but they were opposed by a number of the delegates, who urged the appointment of a native. Among those supporting the contention for a native governor was a faction led by ex-Bishop Aglipay. The commission appointed the candidate of the military authorities, but all the other officers appointed are natives, with the exception of Lieut. Curie, who was appointed treasurer. A typhoon is threatening, and the commission therefore shortened its session, and is making haste to reach Aparri, province of Cagayan, by sea before the storm breaks.

FIRE AT HARBOR SPRINGS.

Michigan Summer Resort Suffers Loss to Extent of \$50,000.

Petoskey, Mich., Aug. 22.—Fire started at 1 o'clock this morning in J. W. Acheson's big bakery restaurant at Harbor Springs, the county seat of this county, five miles from here, and rapidly swept through the business portion of the city, causing a loss approximating \$50,000, about three-fourths insured. The stores and stock of A. N. Smith, grocer; Bert Smith, restaurateur; W. F. Allerton, saloon, were entirely destroyed. Residence, flats above the stores were occupied by resorters, who escaped with their lives, losing practically all their effects. There were several narrow escapes, but no lives were lost or serious injuries reported.

Petoskey's fire department responded promptly on a special train and saved the department store of Foster & Burke, worth \$75,000, which was only partially damaged, and the dry goods house of Ben Segal, on the other side.

It is the most disastrous fire in the history of Harbor Springs and, coming when the city is full of resorters, it is specially unfortunate.

ONE CERTAINTY

Some Janesville People Fully Realize It Now.

When the back aches from kidney ills, when urinary troubles annoy you, there's a certain way to find relief—a sure way to be cured. Doan's Kidney Pills will do it. Janesville people endorse this claim.

Mr. H. W. Rodgers, carpenter, of 210 South Main street, says: "My wife had kidney complaint and rheumatism for five years, suffering a great deal from pain across the loins. Doan's Kidney Pills, sold by the People's Drug Co., brought much longer for and gratifying results. At first there was no visible change and she came to the conclusion that they were like all other remedies she had tried, but finally the aching and the distress in the small of her back disappeared."

From Infancy To Age

Laxakola for Babies.—It is the best and most effective laxative for children. BEST because it is safe and made entirely of harmless ingredients. BEST because it is non-irritating and never gripes or causes pain or irritation. BEST because it is sure and never fails. BEST because "Children like it and ask for it." BEST because its tonic properties are so good and so strengthening that it keeps the little ones in fine, hearty condition. It is a dangerous thing to give little babies violent cathartics that rack and rend their little bodies. DON'T DO IT—give them Laxakola. For constipation, coated tongue, simple colds and fevers it is invaluable.

Laxakola for Young Girls on the threshold of womanhood, has been found invaluable. When they become pale and languid, the eyes dull, aching head, feet and hands cold, appetite gone or abnormal, and their systems generally run down, they need building up, and their blood needs cleansing. Give them Laxakola, its gentle bowel action to cleanse and its tonic properties to build up the system, will show immediate and most beneficial results.

Laxakola for Mothers.—It is particularly valuable and useful to women, especially mothers, as it is a gentle and safe remedy to use during all conditions of health whenever their peculiar and delicate constitutions require a mild and efficient laxative and tonic, which to nursing mothers, worn out with the care of infants and whose systems therefore are particularly susceptible to disease Laxakola particularly appeals.

It clears the complexion, brightens the eye, sharpens the appetite, removes muddy and blotched condition of the skin and cures sick headache to a certainty by removing the cause. To women suffering from chronic constipation, headaches, biliousness, dizziness, sallowness of the skin and dyspepsia, Laxakola will invariably bring relief.

Laxakola for Old Folks.—In the Autumn and Winter of Life, when the various organs through long years of action have become more or less sluggish, it becomes necessary to stimulate them by some remedy best adapted to that purpose. That Laxakola is such, has been proved beyond all question. Its gentle warming, soothing action on the bowels, liver and kidneys, stimulates them to increased activity, cleanses the blood, quickens the circulation, and puts the whole system in a condition of health and enables it to ward off disease, while its tonic properties tone up the system and keep it healthy.

Laxakola Does It.

Laxakola is not only the most efficient of family remedies, but the most economical because it combines two medicines for one price, tonic and laxative. No other remedy gives so much for the money. All druggists, 25c. and 50c., or free sample of THE LAXAKOLA CO., 723 Nassau St., N. Y., or 256 Dearborn St., Chicago.

HAVING A LIVELY TIME AT BELOIT; ANY OLD THING GOES IN LINE CITY

Today is Beloit Day, and the Factories and Stores Are Closed—Banner Crowd of the Week—Fair Directors Elated with Success of Meeting.

Beloit, Wis., Aug. 21.—The second day of the fair brought out another big crowd, 4,000 paid admissions passing through the gates. The exhibits are all in place and are the subject of much favorable comment. The Janesville Carriage company has an extensive display in charge of their Beloit agent, Furgeson Bros. The art hall is completely filled and many more exhibits are not shown on account of the space.

The worst feature of the fair cropped out yesterday in the shape of gambling games of all sorts and descriptions from the three shell games to the more elaborate roulette. There were no less than fifty games going on and each game had from five to ten "cappers" or "ropers-in" who seemed born lucky, as would naturally be expected, and the farmers or townsmen elbowed each other fighting for a chance to separate themselves from their coin. Two well-known Beloit merchants dropped \$75 in about seventy-five seconds and then "hollored." The "con" men were shortly afterward visited by officials and ordered to pack up.

The downtown district is just as bad every saloon sheltering from two to four or five games, the slot machine predominating. No effort is being made to close them up. Beloit citizens cannot recollect the day when the town was as wide open as at present. With the doors of the saloons open and the voices of the gamblers shouting, "Step up and play your money gentlemen, any old kind of a bet goes," intermingled with the sound of music and the clinking of glasses, it sounds worse than a Clark street basement dive in Chicago.

A free-for-all fight was precipitated at the grounds yesterday afternoon by a party of young men who discovered that the upea under the shell was very elusive, and jumped on the proprietor of the game. Result—black eyes and bloody noses for the young men, "cappers" coming to the rescue.

It should not be thought, however, that his feature detracted any from the legitimate features, for the vaudeville artists are par excellence and the racing is superb. A light rain fell yesterday afternoon and the track is very fast and dry. Prof. Hoffman made a perfect balloon ascension today, dropping almost straight down from a high altitude.

The Janesville Imperial band provided excellent music at the day and night fair yesterday and a large crowd came down with them. Geo. Smith of Beloit ran away from Her-

bert Eggleston of Janesville in the mile bicycle race. The riders loated until almost to the stretch in the second circuit and then Smith started a spurt that carried him under the wire a winner by a dozen feet.

Today is Beloit day and the factories and stores are closed for the afternoon. The banner crowd of the week is in attendance.

Ahead of Expectations
Beloit, Aug. 22.—The directors of the Beloit interstate fair are highly elated for the exhibition promises to be far ahead of their expectations. There are more cattle, horses, sheep, hogs and poultry on exhibit than the most sanguine director could have hoped for. Few associations could boast of a better display of products than can be seen on the grounds.

Notes of the Fair
W. H. Graves occupies space in the art hall with the Domestic sewing machine.

Joe Bassett, a familiar figure on the race track and known to almost every man, woman and child in Rock county, is on the ground with a good string of horses.

Prof. Larue, the aeronaut, made two successful balloon ascensions during the day.

The special features in the way of vaudeville attractions are splendid. Performances are given between racing events, consisting of trick bicycle riding, tumblers, aerial acts; the four Johnsons in ground and lofty tumbling, slack wire performers and the Giant Quartette from Chicago, who not only sing well but give character sketches as well.

Court Bliven of Edgerton is on the grounds with Barth Quake Pilot, the guileless wonder, and gives an exhibition each day; also Cheerful Alcy with a record of 2:12. This horse is entered in the free-for-all Friday. There is some good speed entered in this event but Mr. Bliven states: "That the horse that beats him will have to turn the track under 14."

LEE DID MEET COCKRAN.

English Officer Denies Recent Story Sent from London.

New York, Aug. 22.—Capt. Arthur H. Lee, formerly military attache at the British legation in Washington, who is in the city, having arrived on the Kaiser, Wilhelm der Grosse, when reminded of a story from London that he had refused to shake hands with W. Bourke Cockran when they were introduced said: "I did not decline to meet Mr. Cockran, as has been reported, but I could not refrain from reminding him that I had heard him deliver a very eloquent address in Washington at a pro-Boer meeting. That was all."

Hinrichsen Shaken In Health.

Springfield, Ill., Aug. 22.—William H. Hinrichsen, former congressman and secretary of state, was one of the passengers on the Alton "Hummer," which was wrecked near here early this morning, and the effect of the shock has caused him to become seriously ill again, when he was just recovering from his recent attack.

Gales on Atlantic Islands.

St. Thomas, Aug. 22.—Heavy southerly gales swept the islands of Barbados, Dominica, Martinique and Saint Vincent on Tuesday. At Saint Vincent the damage was particularly heavy, as many shipping lighters and wharves were destroyed by the waves.

Mrs. Beckham May Die.

Louisville, Ky., Aug. 22.—Mrs. J. C. W. Beckham, wife of the governor, is very low. Relatives have been summoned and physicians have gone from Louisville on a special train.

Hays May Go to Grand Trunk.

COUNTERFEIT CENTS.

Treasury Puzzled by the Large Number of Them Turned Out.

To pass a counterfeit \$1,000 bill is an extremely difficult undertaking, because the very size of it invites inspection, but counterfeit cents will pass about as fast as you hand them out, even in banks, under the eyes of experts, for their insignificant size draws suspicion. The fact is being very strongly impressed on the officers of the national sub-treasury, who are now in receipt of an immense number of these humble little counterfeits. About 500 of these little bogus coins are arriving in the sub-treasury daily, and the April report shows that 13,168 counterfeit cents were received out of a total of \$78,870; yet the secret service men are not able to locate the counterfeiters. It is found that the counterfeit cents are growing more and more like the genuine ones, as practice is making perfect, and it is often with difficulty that they are distinguished. A strange feature of the business is that the bogus cents are intrinsically worth as much as the genuine ones. They have the right quantity and quality of metal in them, bear the proper image and superscription, and yet represent only 17 cents in value to the pound; while a pound of similar coins, struck at the United States mint, are legal tender for \$1.20. The margin makes profit enough to invite counterfeiting.—Utica Globe.

Mosquitoes Kept at Bay.

A railroad man who works in one of the switch towers on the line to Atlantic City, surrounded by a mosquito-infested swamp, has a plan of his own for keeping them out of the tower. He makes a ball out of newspapers and soaks it in coal oil just enough so that it will not drip. He hangs this midway between two windows and keeps it swinging all the time. He says that no matter how thick the mosquitoes may be outside they never care to pass it.—Philadelphia Times.

Both Had One.

An enthusiastic Louisiana fisherman had great luck while fishing on the Illinois river recently. During the day he wired his wife: "I've got one, weighs seven pounds and is a beauty." He was considerably surprised to receive the following from his wife: "So have I. Weighs ten pounds. He isn't a beauty. Looks like you."

Every woman in the country ought to know about

Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy.

A druggist of Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it."

A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

JIM HOKE'S MEANNESS.

It Was Unanimously Declared That He Was No Gentleman.

"I wanted to ask you," he chipped in as the sea captain was telling a yarn—"I wanted to ask you if in your wanderings you ever came across an old salt named Hoke?"

"What! Jim Hoke?" queried the captain.

"Yes, Jim Hoke—a short, broad backed man, you know."

"With reddish hair and a cast in his eye?"

"The same."

"And his left thumb gone?"

"Yes," He was my own brother."

"You don't say! Well, he sailed with me on my last voyage, and he ought to be ashamed of himself. Jim Hoke was no gentleman."

"How do you mean?"

"Why, after we had been knocking about for 14 days in the boats we got short of provisions and grew lousy. It was for Jim to die for the benefit of the rest of us, but he rose up and took a header over the side and gave himself to the sharks. You are his brother, and you look like a decent man, but I'm telling you that we put it to vote then and there, and it was unanimously carried that Jim Hoke was a good deal of a durned hog and mighty little of a gentleman."

M. QUAD.

He Might Have Failed.

"And now, my friends," said the lecturer on "The Life and Times of George Washington," when he had concluded his address, "if any of you cares to ask me a question, please speak up."

"Do you think Washington's character was fully tested?" queried a man in the audience.

"It was as far as could be under the then existing situation of affairs," was the reply.

"But he never held the end seat of an open car when a fat woman wanted to get on?"

"Never, of course, and as greatly as I admire the great man I cannot make up my mind whether he would have hitched along like a gentleman or held fast to his place like a hog."

In Retaliation.

"Child," said the businesslike matron acting as leader of the visiting committee, turning to the dirty faced little girl chewing gum in one corner of the room in the tenement house, "wouldn't you like to live in a better part of town than this?"

"No, ma'am," said the dirty faced little girl, "but when I get bigger I'm goin' slummin' through your part o' town some day."—Chicago Tribune.

One Drawback.

"Dey's one thing I don't like about dis life of idleness."

"Wot is it?"

"We don't get no vacation."—New York Journal.

So He Must.

Joakley—It's surprising that so many successful farmers should be duped by confidence men.

Hoakley—Oh, I don't know! Farming isn't calculated to make one shrewd.

Joakley—And yet to be a successful farmer one must be sharp as a raiser.—Philadelphia Press.

Another Monarch.

"Although this is a republic," remarked the horse editor, "there are corn kings and steel kings and oil kings and kings of other sorts."

"And at present," added the snake editor, "it looks as though an opening for a potato king has appeared."—Pittsburg Chronicle-Telegraph.

Not a Boston Girl.

"I thought you said that girl you introduced me to was from Boston?"

"Well, isn't she?"

"No, New York. Why, I asked her if she was a follower of Emerson, and she said, 'Wot team's he playing on?'"—Philadelphia Bulletin.

BEAUTIFUL OCEAN ANEMONES.

Specks on Shells Are Beautiful Living Ocean Flowers.

Along the entire Atlantic coast there lie, day after day, tide after tide, clam shells, snail shells, and stones with dirty, slimy, wart-like specks on them. Rub them, and nothing is left except a disagreeable viscid fluid. Yet all these specks are living ocean flowers, the wonderful sea anemones that vie with land flowers in beauty and with the oddest of land animals of oddity. Pick up one of these dirty shells with the warts on it and place it carefully in a pool of clear, cold sea water, where the tide can reach it to keep it pure, and you will see a marvelous thing. So slowly that the motion is almost imperceptible the wart will lengthen itself out just the least bit. Then its apex begins to swell, and finally a sharp eye can see that it is opening. Suddenly petals commence to sprout from it. You are beholding the growth of a perfect sea blossom. Bit by bit the delicate, rich-tinted petals grows. It may take five minutes, it may take an hour, according to circumstances, before the flower is open. But it is worth waiting for, even if one has to wait an entire day. These petals are of every shape and of every size and of every color. Some anemones are exactly like splendid dahlias when they are fully open. Others are of a delicate texture and tint like purple asters.
